

SOFT IRON - PLUG GASKETS

Unifit Metalloys Inc is pleased to provide high-quality Plug Gasket with meticulously designed to offer secure sealing solutions for various industrial applications. Plug gaskets are specifically designed to seal the connection between the plug and the mating surface securely, preventing leaks and ensuring containment of fluids or gases.

These Plug Gaskets are mainly used to seal the Header Plugs with the Plug Sheets to avoid Leakage. When tightening down header plugs to Fin-Fan Heat Exchanger or Air Cooled Heat Exchanger, its standard operating procedure to include a simple flat gasket to prevent leaks and create a better seal. we have the capacity to produce massive quantities of flat heat exchanger gaskets in any material, at any size and with any specialty coatings you may require.

FLAT HEADER PLUG GASKET PRODUCT FEATURES:

- Inexpensive solution to seal against header box leaks
- Can be used with your existing header plugs
- The traditional solution to heat exchanger leaks
- Same-day shipment on in-stock sizes
